

## Supersmile Toothpaste

Art no: 140502

### Professional Whitening Toothpaste

The Supersmile kit contains the following items:

- A 45 g Supersmile Original Mint
- Instruction sheet

#### How it works

Supersmile Toothpaste with Calprox® works by gently dissolving the protein pellicle – a thin layer of protein that forms on the tooth surface, and to which plaque, bacteria, and of course, stains adhere. Removing the protein pellicle leaves the teeth feeling cleaner for a longer period of time. Baking Soda provides long-lasting germicidal protection to ensure fresher breath and to prevent gum disease. Teeth are protected with Fluoride while the calcium and phosphates work to re-mineralize tooth enamel.

Since the Toothpaste contains no gritty silica – the abrasive ingredient commonly used in commercial toothpastes to scrape away the pellicle it is 75% less abrasive than the recommended standard set by the American Dental Association.

#### 3+ Unique Competitive Advantages

- **Whitens:** Calprox® safely lifts surface stains such as coffee, tea, tobacco, red wine and other stains without harsh abrasives or the risk of sensitivity. Maintains and enhances the vibrancy of professionally bleached teeth. Restores bonding, caps, veneers and dentures to their original whiteness.
- **Freshens:** Sodium Bicarbonate provides long-lasting germicidal protection for fresher breath.
- **Strengthens:** The combination of Calcium, Phosphates and Magnesium re-mineralizes tooth enamel.
- **Protects:** Fights against cavities with fluoride.
- **Silica Free, Gluten Free & Sulfate Free**

#### Ingredients:

Water, Sorbitol, Dicalcium Phosphate Dihydrate, Sodium Bicarbonate, Calcium Carbonate, Titanium Dioxide, Cellulose Gum, Calprox®, Sodium Perborate, Flavor, Corn Starch, Magnesium Carbonate, Sodium Lauryl Sulfoacetate, Methyl Paraben, Sodium Saccharin, Propyl Paraben.
